

## Fall 2017

Date	Speaker	Organization	Title
	<b>Dr. Abhaya Date</b>		
9/07/2017	Distinguished Regents' Professor & Department Chair  Chemical & Biological Engineering	University of New Mexico	Designing Catalysts for Meeting the DOE 150C Challenge for Exhaust Emissions
	<b>Dr. Raul Lobo</b>		
9/21/2017	Claire D. LeClaire Professor of Chemical & Biomolecular Engineering & Director of the Center for Catalytic Science & Technology	University of Delaware	Biomass and Light-Alkane Valorization via Zeolite Catalysis
	<b>Dr. Pinlian Han</b>		
9/25/2017	Entrepreneur Chair Professor, Department of Mechanics & Aerospace Engineering	Southern University of Science & Technology, China	Additive Design Opportunity for and Challenge from Aero Engine
	<b>Dr. V. Faye McNeill</b>		
9/28/2017	Associate Professor of Chemical Engineering	Columbia University	Aqueous Chemistry in Atmospheric Aerosols: Impact on Air Quality
	<b>Dr. Plamen Atanassov</b>		
10/19/2017	Distinguished Professor of Chemical & Biological Engineering and Chemistry & Chemical Biology, Director of Center for Micro-Engineered Materials	University of New Mexico	Templated Materials as Electrocatalysts for Polymer Electrolyte Fuel Cells
	<b>Dr. Selen Cremaschi</b>		
11/16/2017	B. Redd Associate Professor of Chemical Engineering	Auburn University	On Tactical and Strategic Decision Making for Chemical, Pharmaceutical, and Energy Industries Under Uncertainty
